Q?

WHAT IS IIESL

A.

Institution of Incorporated Engineers, Sri Lanka (IIESL) established in 1977 as “All Ceylon Engineering Diplomates Association“, was transformed to a professional body under the name of “ Institute of Engineering Diplomates, Sri Lanka”, by an Act of Parliament(Act No. 64 of 1992). It was renamed with the present status as “Institution of Incorporated Engineers, Sri Lanka” by an Act of Parliament (Act No.11 of 2000). IIESL has a wide opening for personnel of all level in the field of Engineering Technology. Incorporated Engineers are the internationally recognised category of Engineers in the field of Engineering Technology, who effectively manage the construction, operation, maintenance and project management functions, by implementing appropriate technology.

Q?

ELIGIBILITY CRITERIA TO BECOME A MEMBER OF IIESL?

A.

- Human Resource Development
- To establish a common recognition, a dignified position for the Diploma Engineers in the SAARC countries.

Q?

WHO IS AN INCORPORATED ENGINEER?

A.

Incorporated Engineers are specialists in the development and application of today's technology, managing and maintaining applications of current and developing technology at the highest efficiency. With their detailed knowledge and understanding of current engineering applications, they possess the skills and know-how to make things to happen

and often have key operational management roles. They have detailed understanding of a recognized field of technology and exercise independent judgement and management within that field. They add substantial value, independently and as leaders, to any organization where technology is a core activity or supports the business.
